The Consolidation would allow Maverix to meet the minimum share price requirements to pursue a dual listing on a U.S. stock exchange and will only be completed if the Company obtains all of the necessary approval for a U.S. listing. The Company currently has 215,896,666 issued and outstanding common shares. The exercise or conversion price of all outstanding stock options and warrants would be proportionately adjusted based on the consolidation ratio. Maverix intends to issue a detailed press release to provide a further update on the Consolidation.
