

MAVERIX METALS COMPLETES ACQUISITION OF ROYALTY PORTFOLIO FROM KINROSS GOLD

December 19, 2019, Vancouver, British Columbia – Maverix Metals Inc. (the “Company” or “Maverix”) (NYSE American & TSX: MMX) is pleased to announce that it has completed the previously announced acquisition of a portfolio of over 20 precious metals royalties (the “Royalty Portfolio”) from Kinross Gold Corporation (“Kinross”) (the “Transaction”).

As consideration for the Transaction, Maverix has issued 11.2 million common shares and made a cash payment of US\$25 million to Kinross. Maverix used existing cash on hand and its revolving credit facility to fund the US\$25 million cash payment. Maverix will now have a total of 119.5 million common shares issued and outstanding, of which Newmont Goldcorp Corporation, Pan American Silver Corp and Kinross hold approximately 25.1%, 23.1% and 9.4% respectively.

Certain royalties in the Royalty Portfolio are subject to restrictions on their transfer which include rights of first refusal. The rights of first refusal will permit the underlying property owner the right to purchase the specific royalty for cash on the same valuation as established by Kinross and Maverix. If the rights of first refusal are not exercised, then the specific royalties will be acquired by Maverix pursuant to additional closings. Any proceeds from the exercise of a right of first refusal will be paid to Maverix.

As part of the Transaction, Kinross and Maverix entered into an Investor Agreement dated December 19, 2019, pursuant to which, among other things, Kinross will receive certain anti-dilution rights in respect of future equity financings of Maverix and Maverix will receive the opportunity to make an offer to acquire certain metal streams or metal royalties, which Kinross might contemplate selling in the future.

About Maverix

Maverix is a gold-focused royalty and streaming company with a globally diversified portfolio of over 100 assets, of which 14 are currently paying. Maverix’s mission is to increase per share value by continuing to add new precious metals royalties and streams. Its shares trade on both the NYSE American and the TSX under the ticker symbol “MMX”.

Cautionary statements to U.S. investors

The financial information included or incorporated by reference in this press release or the documents referenced herein has been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, which differs from US generally accepted accounting principles (“US GAAP”) in certain material respects, and thus are not directly comparable to financial statements prepared in accordance with US GAAP.

Information contained or referenced in this press release or in the documents referenced herein concerning the properties, technical information and operations of Maverix has been prepared in accordance with requirements and standards under Canadian securities laws, which differ from the requirements of US securities laws. The terms “mineral resource”, “measured mineral resource”, “indicated mineral resource” and “inferred mineral resource” used in this press release or in the documents incorporated by reference herein are mining terms as defined in accordance with NI 43-101 under guidelines set out in the Definition Standards for Mineral Resources and Mineral Reserves adopted by the Canadian Institute of Mining, Metallurgy and Petroleum Council on 11 December 2005. While the terms “mineral resource”, “measured mineral resource”, “indicated mineral resource” and “inferred mineral resource” are recognized and required by Canadian securities laws, they are not recognized by SEC standards and normally are not permitted to be used in reports filed with the SEC. Investors are cautioned not to assume that all or any part of the disclosed mineral resource estimates will ever be confirmed or converted into reserves

that meet the definitions used by the SEC. Disclosure of contained ounces are or may be permitted disclosure under regulations applicable to Maverix; however, the SEC normally only permits issuers to report mineralization that does not constitute “reserves” by SEC standards as in-place tonnage and grade without reference to unit of production measures. Accordingly, certain information contained in this press release or in the documents incorporated by reference herein concerning descriptions of mineralization and mineral resources under these standards may not be comparable to similar information made public by US companies subject to reporting and disclosure requirements of the SEC.

Cautionary note regarding forward-looking statements

This release contains certain “forward looking statements” and certain “forward-looking information” as defined under applicable Canadian and U.S. securities laws. Forward-looking statements and information can generally be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “continue”, “plans” or similar terminology. The forward-looking information contained herein is provided for the purpose of assisting readers in understanding management’s current expectations and plans relating to the future. Readers are cautioned that such information may not be appropriate for other purposes. Forward-looking statements and information include, but are not limited to, statements with respect to timing and completion of the additional closings for royalties subject to rights of first refusal. Forward-looking statements and information are based on forecasts of future results, estimates of amounts not yet determinable and assumptions that, while believed by management to be reasonable, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual actions, events or results to be materially different from those expressed or implied by such forward-looking information, including but not limited to: impact of general business and economic conditions; the absence of control over mining operations from which Maverix will purchase gold and other metals or from which it will receive royalty payments and risks related to those mining operations, including risks related to international operations, government and environmental regulation, delays in mine construction and operations, actual results of mining and current exploration activities, conclusions of economic evaluations and changes in project parameters as plans continue to be refined; accidents, equipment breakdowns, title matters, labor disputes or other unanticipated difficulties or interruptions in operations; problems inherent to the marketability of gold and other metals; the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses; industry conditions, including fluctuations in the price of the primary commodities mined at such operations, fluctuations in foreign exchange rates and fluctuations in interest rates; government entities interpreting existing tax legislation or enacting new tax legislation in a way which adversely affects Maverix; stock market volatility; regulatory restrictions; liability, competition, loss of key employees and other related risks and uncertainties. Maverix undertakes no obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents management’s best judgment based on information currently available. No forward-looking statement can be guaranteed, and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information.
